

## How can I log in to my personal Drillster environment?

**As soon as a participant has been registered (by a contact person) for the 'Track Safety' training course, test and/or building block, a link will be automatically sent to the specified email address. The participant can use this link to log in to the personal Drillster environment.**

In this personal Drillster environment, the participant can practice his drills in preparation for the test or in preparation for the 'Track Safety' training course or building block.

### How to log in to your personal environment?

The registration confirmation and invitation in your email contains an access link that refers the participant to the (example) page below.

### Pair with the app on phone or tablet

The participant can easily link his/her Drillster environment to the Drillster app on a tablet or phone.

1. [Go to the Google Play / Apple App Store](#) and download the Drillster app from Drillster BV. Can be recognized by the symbol below.

2. The participant can download the app on his/her phone or tablet
3. The participant then goes to his/her personal Drillster environment on the computer (see screenshot below)

4. The participant selects the drill he/she wants to start. The screen below will then appear

5. The participant must then click on the 'connect to app' button at the top right of the screen
6. The participant scans the code that appears on the screen with his/her phone or tablet
7. The participant can now create his/her drills in the app on his/her device.
